

NEW DMM LAUNCH CAMPAIGN!

Scan for more details at www.hioki.com

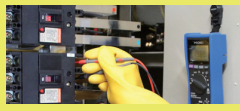

Celebrating the release of another series of Digital Multimeters for electricity professionals, for a limited time, get a free Hioki Voltage Detector or PC Data Management Software when you buy any HIOKI Digital Multimeter from the DT425 and DT428 Series!

Contact your HIOKI distributor below for more information today:

Offer conditions:

- * This offer applies to all purchases of the following Hioki Digital Multimeters:
Model DT4252, DT4253, DT4254, DT4255, DT4256, Model DT4281 and DT4282
- * Purchases made outside the promotional period are not eligible for a free voltage detector or PC data management software.
- * Promotional periods vary - please inquire with your local HIOKI distributor or authorized reseller.
- * Hioki and its authorized distributors reserve the right to modify or discontinue this offer during a promotional period.
- * All options sold separately.

Shared functionality that delivers reliability in the field

Fast measurement and easily readable results
Automatically detect whether the target voltage is AC or DC and display measured values quickly. And thanks to an automatic display hold function, it's easy to read the results.

Display that's easy to see in dim locations
A bright backlight makes testing in the dark effortless.

Dust-proof design for fewer malfunctions
Thanks to an enclosure that's designed to keep out dust, the new DMMs deliver outstanding durability, even in dusty field locations. Photo: An O-ring keeps dust out of the space around the instrument's rotary knob.

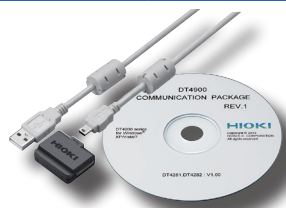

Shockproof construction for superior durability
Thanks to their robust design, the digital multimeters can withstand being dropped onto concrete from a height of 1 m.

High-quality, safety-first design
The DMMs feature a design that gives top priority to safety and deliver a high level of quality since all assembly processes are carried out in Japan.
